### PROFESSIONAL SUMMARY

Result-oriented Frontend Developer with a solid foundation in Management Information Systems, specializing in building responsive, high-performance, and user-centric web applications using React.js and JavaScript. Adept at transforming complex designs into clean, maintainable code while ensuring cross-browser compatibility and seamless user experiences. Strong problem-solving abilities combined with a commitment to continuous learning and effective team collaboration.

### TECHNICAL SKILLS

**Frontend Development:** JavaScript (ES6+), React.js, HTML5, CSS3, Responsive Web Design  
**Styling & Animation:** Tailwind CSS, Framer Motion, Bootstrap  
**Tools & Version Control:** Git, GitHub, VS Code, Web Performance Optimization

### PROJECTS

#### Estatein (Real Estate Platform)

*Technologies: React.js, Tailwind CSS, Framer Motion*

- Developed a dynamic real estate platform using React.js and Tailwind CSS, focusing on high-performance and fluid user interaction.
- Implemented advanced search and interactive filtering functionality to optimize property discovery for users.
- Utilized Framer Motion to deliver smooth transitions and enhance overall user engagement across all device breakpoints.

#### Product List with Interactive Cart

*Technologies: React.js, Tailwind CSS, Frontend Mentor Challenge*

- Built a dynamic e-commerce interface featuring a real-time shopping cart system with automatic quantity and total price updates.
- Managed component state effectively in React to ensure instantaneous UI synchronization without performance lags.
- Ensured robust data handling and strict layout consistency using Tailwind CSS.

#### Multi-Step User Form

*Technologies: React.js, Tailwind CSS, Client-Side Validation*

- Created a highly responsive, multi-step form wizard designed to streamline complex user data inputs.
- Engineered comprehensive client-side field validation to improve data accuracy and enhance the submission experience.
- Focused on user accessibility (a11y) and responsive design principles for seamless mobile and desktop execution.

## Featured Frontend Implementations (Cyborg, Finexo, Pixel.io, Buildify, Tigrun)

*Technologies: React.js, Tailwind CSS, Modern UI Frameworks*

- Architected a diverse portfolio of web applications including a Gaming Library, Crypto Trading Platform, Digital Agency Website, and an AI Agent Showcase.
- Focused strictly on modern UI/UX principles, clean component reusability, and lightning-fast load times.

## EDUCATION

---

### Bachelor of Science in Management Information Systems

Graduation: July 2025
